Joint Operational Fires & Effects Course

http://sill-www.army.mil/jcid/

PURPOSE

JOFEC is designed to educate personnel from all services, ABCA countries, and other government agencies on the skills and processes necessary to apply and generate joint lethal and non-lethal fires and effects. Each student will gain a baseline knowledge of joint and service fires capabilities, platforms, operational environment, doctrine, the joint targeting process and how the joint fires and effects system operates. It will prepare students to function effectively at the Joint/Operational level in a full spectrum of military operations. Their knowledge will be exercised and validated through successive, nested practical exercises in which they apply the principles of joint lethal and non-lethal fires and effects. This course focuses on Joint Doctrine from planning to execution.

SCOPE

Trains members of the joint fires and effects team the skills required for the integration, coordination and synchronized application of the full range of joint fires and effects (lethal and non-lethal).

JOINT OPERATIONAL FIRES & EFFECTS COURSE

FORT SILL, OK

SPECIAL INFORMATION

This course is designed to satisfy the education of leaders between brigade equivalent fires and effects integration and the JTF. Security Clearance Required: SECRET.

JOINT OPERATIONAL FIRES & EFFECTS COURSE

FORT SILL, OK

TARGET AUDIENCE

Selected officers (03 – 06), (CW02-CW05) and selected senior NCOs (E-6 and above) serving or slated to serve in fires and effects coordination cells from Fires and Aviation brigades up to Joint Task Force/Combatant Command level .

LOCATION

Fort Sill is a major U.S. Army installation located in southwest Oklahoma. It is 90 miles southwest of Oklahoma City, the state capitol, and 50 miles north of Wichita Falls, Texas on Interstate 44. The post is adjacent to and just north of the city of Lawton.

JOFEC Critical Training Tasks

Plan Joint Fires

- Develop joint targeting guidance, objectives and intent
- Develop functions, priorities and agenda for Targeting Effects Team
- Recommend procedures for attacking HVIs and TSTs
- Develop draft Joint Integrated Prioritized Target List
- Coordinate fires related ROE
- Develop targeting Measures of Effectiveness, Action/Tasks and Measures of Performance

JOFEC Critical Training Tasks

Coordinate Joint Fires

- Review targeting information as it pertains to CJTFs guidance, objectives and intent
- Compile and deconflict target nominations from service/functional components
- Coordinate combat assessment efforts
- Recommend, coordinate and disseminate FSCMs
- Ensure IO is fully integrated and synchronized into plans
- Maintain the Restricted and No-Strike Target Lists
